

Cocopeat Holds 10 Times More Water

Suitable For Golf Green Construction,
Horse Racing Tracks & Sports Fields.

1

Boyce Agro supplies the best quality Cocopeat made out of coconut husk.

2

Golf Green Turf and Sports field constructors deliver high quality and high performing playing fields when adding Cocopeat as an organic mix* to the soil thus resulting in less nutrients and less maintenance.

3

Cocopeat as an organic amendment in golf greens and sports fields helps conserve water and reduce nutrient runoff.

Increases the water holding capacity

Boyce Agro
